

NATALIA BEAUTY
CLINIC

FLOW BROWS

On the 1st day, wash after 1 hour of the procedure with the cleansing foam (Natalia Beauty), with circular movements and finish with post-nano ointment (Natalia Beauty);

Avoid physical activities for 2 days. Sweat can expel the pigment;

From the 2nd day to the 15th day, wash morning/night with facial cleansing foam (Natalia Beauty) and apply ointment (Natalia Beauty). If you feel your eyebrows dry during the day, apply the ointment again in a small amount;

Do not apply makeup or sunscreen on the eyebrows for 15 days;

Avoid swimming pools, sea, sauna and exposure of the region to the sun for 7 days;

To maintain the design of the procedure, it is necessary to perform the eyebrow design every 15 or 20 days;

NATALIA BEAUTY
CLINIC

FLOW BROWS

From the 2nd to the 3rd day, the eyebrows will be darker. Don't worry, it's normal;

From the 6th to the 20th day, you will have the impression that the wires disappear, because in this period phagocytosis takes place, where the body encapsulates the pigment for healing. Don't worry, it's normal;

From the 20th to the 30th day, healing begins and the wires begin to become more apparent.

Kit – Foam, Ointment
Healing and Strong Hair

How to Use

Apply the foam to clean your eyebrows, making circular movements.

After cleaning, apply a thin layer of Healing Ointment (Natalia Beauty).

Wait for the Healing Ointment to dry before apply **Serum Strong Hair** and comb, style as you like.

Daily use, 2x a day.
